SPINNING

DS15

Inspired by the road cycling movement, the DS15 is a high-performance indoor bike for any athlete and an exhilarating power trainer for all types of athletes. With more accurate performance data than any other indoor bike, the DS15 provides exceptional results for people working with specific cycle training, high intensity interval training and endurance training.

DIMENSIONS

94 x 55 x 118 cm

MAXIMUM USER WEIGHT

120 kg

INERTIAL MASS

16 KG

BRAKE

Magnetic brake.

SEAT

Ergonomically designed seat with adjustable height and depth.

TRANSMISSION

POLY-V® belt drive system

HEART RATE READING

Pulse sensors included in handlebars.

CONNECTIVITY WITH APPS

Bkool, Kinomap, MyBodytone, Onelap, Zwift

MAXIMUM HOURS OF USE

10 h/week.

CONSOLE FUNCTIONS

TIME/ SPEED/ DISTANCE/ CALORIES/ RPM/ HEART RATE.

PEDALS AND BOTTOM BRACKET

The bottom bracket incorporates high quality bearings to reduce maintenance costs and provide a smoother workout.

On the other hand, the distance between pedal and seat is 825 mm and its pedals have grips to make sports practice more comfortable and pleasant.

MATERIALS AND FINISHES

It offers a set of unique features such as its splash-proof frame coating that protects it against damage caused by moisture, its POLY-V® belt drive system that through the 6 Poly-V ribbed belts with Kevlar cords are designed to offer an incredibly smooth and fluid ride, with an extremely realistic feel. Kevlar cords are stronger and last longer than materials traditionally used in belt drive systems, resulting in a virtually maintenance-free product that does not need to be tensioned or lubricated.
