FORZA RACKS LINE

FR10

MAT RACK

**DIMENSIONS**

69 x 77 x 134 cm.

NET WEIGHT / GROSS WEIGHT

17 kg / 23 kg.

STRUCTURE

Steel tube 60 x 30 mm and 1.5 mm thick, welded by robotised process, free of projections. Structural connection plates of 8 and 5 mm, for an extra rigid union.

SUPPORTS

4 supports of 8 mm diameter and 270 mm long, for loading mats on two sides.
Distance between supports: 420 mm.

STORAGE CAPACITY

approx. 30 units (15 per side)

MAXIMUM LOAD WEIGHT

80 kg.

COMPATIBLE MAT TYPE

Valid for mats of 120 x 60 cm and with a distance between rings of 420mm.

MATERIALS AND FINISHES

High quality finishes.
3.5mm ABS thermoplastic ferrules.

WHEELS

Wheels with brakes, with 360° free movement, for easy movement.

DESIGN PROCESS

Biomechanics and ergonomics study under the supervision of professionals and associated athletes. After a long period of design; from the sketch, engineering research, prototype production, testing by professional athletes, our products are launched on the market.

PAINTING PROCESS

3 coats of paint.
Steel pickled and stabilised by total immersion of the parts in different degreasing solutions to guarantee a perfect and complete cleaning of the base material. Anti-rust primer to guarantee adequate insulation from internal oxidation and good paint adhesion. 2 final coats of polyester epoxy powder paint, dried at 240°C.
