LEADER SPINNING

MT3

The MT3 professional magnetic indoor cycling bike features the smoothest and quietest technology on the market, integrating a magnetic brake system and Poly-V belt transmission. It is compatible with the m20x trainer. The popularity of the Bodytone professional spinning bikes is due to the fact that they have an affordable price while offering the best quality.

DIMENSIONS

128 x 61 x 105 cm

NET WEIGHT

51 kg

MAXIMUM USER WEIGHT

150 kg

TRANSMISSION

POLY-V® belt drive system.

HEART RATE READING

Compatible with Bluetooth chest strap.

PEDALS

Mixed SPD. VP Components X-93. Dual use, perfect for use with cycling shoes with cleats and normal running shoes.

INERTIAL MASS

20 Kg Aluminium flywheel.
Special design, larger with NTN bearings, with double system on the right side.

EMERGENCY BRAKE

Emergency brake by means of a multi-position lever.

SEAT

Aluminium with micro-adjustments, 17 different positions vertically and 12 numbered positions horizontally. Aluminium seat post with laser engraved position numbering.

PROTECTIONS

Side and front wheel and bottom bracket protectors made of TPR, which prevents rust and corrosion caused by sweat.
ABS rear stretch guards on both sides and centre tube.

INTENSITY LEVELS

Resistance adjustment: ergonomic and covered in porous foam, anti-allergic and easy to clean.
In aluminium with laser engraved 7-position numbering. Types of adjustment by pop-pin.

CONSOLE

The MT3 is compatible with the M20X scoreboard with which you can participate in Bkool, Zwift and Kinomap virtual routes, and upload data to your training apps via Bluetooth 4.0.

It allows you to measure average speed, average RPM, calorie consumption, time and distance, and has several functions such as: Watts - Time - Distance - KCal - Speed - RPM - BPM.
