RACK SQUAT

INDOOR

MODEL **SR10-E**

**MEASUREMENTS**

150 x 177 x 232 cm

NET WEIGHT

215 kg

BASE BASE

4 anti-skid feet.

HEIGHT POSITION ADJUSTMENTS

8 positions.

GRIPS

Grips for pull-ups.

SAFETY SYSTEM

Safety stops adjustable to different heights.

GRIPS

Anodised ALUMINIUM, knurled for better grip.

AXLES

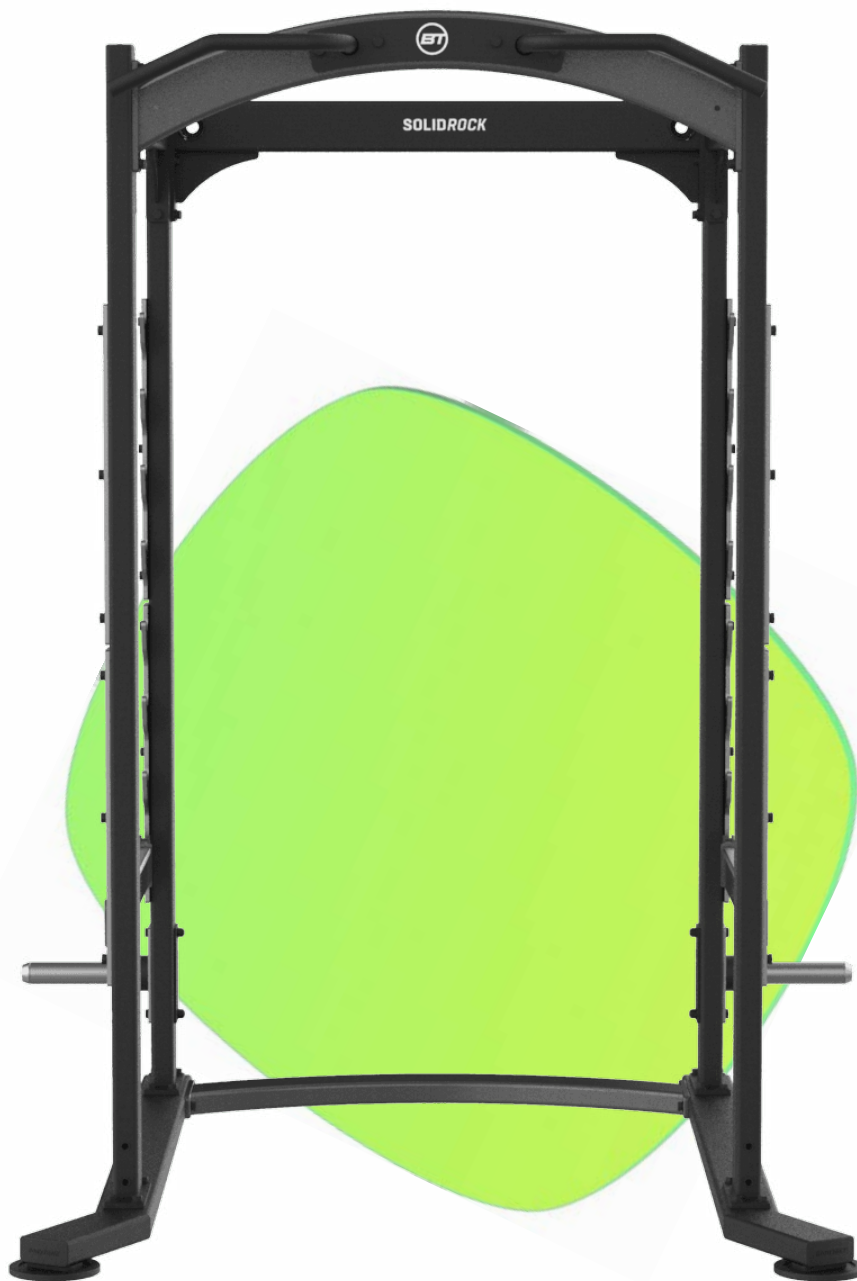

Closed perimeter welding at structural points and connecting plates.

STRUCTURE

110 x 52 mm steel tubes, 3 mm thick. Welded in accordance with UNE 10219 regulations, quality S-275-J0H. Enriched and optimised to maintain a constant section in the bending process, thus avoiding sensitive areas and minimising the breakage rate. Cold bending process, by means of a 4-roller system, avoiding any deformation in the process and maintaining the physical characteristics throughout the piece. Closed welding perimeter in the structural points and joint plates.

PAINTING

3 coats of paint. Steel pickled and stabilised by total immersion of the parts in different degreasing solutions to guarantee a perfect and complete cleaning of the base material. Anti-rust primer to guarantee adequate insulation from internal oxidation and good paint adhesion. 2 final coats of polyester epoxy powder paint, dried at 240oC.
