BODYTONE, EQUIPPING YOUR GYM

Bodytone is the brand of fitness professionals who are trying to reach out to anyone who wants to train and look after themselves in a sports centre or in their own home.

Bodytone's aim is to improve people's health and happiness by making sport accessible and unique.

Our passion for sport means we are fully in-tune with the needs of our customers. Since Bodytone was first launched, we have worked closely with fitness professionals by listening to their needs and creating products and solutions that improve their sports centres, their clients' experiences and financial results.

Bodytone equips both large fitness centres and independent gyms, providing robust solutions for the most demanding clients.

We also provide trusted solutions for hotels, residential complexes, universities, corporate settings and clinics. We specialise in technologically advanced products which are designed to monitor training stats and provide an interactive user experience.

The key to Bodytone is to help professionals boost their business:

**TAILOR-MADE
FINANCING**

**CUSTOMER SERVICE AND
UNIQUE GUARANTEES**

**PROFITABILITY FOR
THEIR BUSINESS**

CREATIVE PROCESS: HIGH-LEVEL DESIGNS

Bodytone's design team works every day to create world-class equipment through a successful formula that integrates research centres, professionals and users.

Bodytone has collaboration agreements with relevant research centers around sports and biomechanics from prestigious universities such as the University of Valencia or the Catholic University of Murcia in order to take its products to a higher level in order to provide the maximum experience to the users.

We equip both large gym chains and independent centers, responding with solvency to the highest levels of demand. Likewise, hotels, residential complexes, universities, corporate spaces and clinics also trust us.

HIITLINE

HIIT encompasses a line of products capable of taking the body to the limit in the shortest possible time.

HIGH INTENSITY INTERVAL TRAINING

HIIT (abbreviation for "High Intensity Interval Training,") is a type of fitness training based on short, high intense interval sessions which alternate strength and recuperation.

Many studies have demonstrated their effectiveness in losing weight, effectively and efficiently, as well as notably improving physical resistance. It is great for those people who have limited time, 45 minutes sessions or an hour allow you to work hard over a short period of time.

Currently, HIIT has been introduced as a growing trend amongst athletes. For this reason, since the beginning of Bodytone, we have wanted to create a perfect line for professionals, who can equip their gym with the best equipment to accomplish this activity.

Traininggym

MyBodytone

Zwift

Equivalent to ZRO TM

BILMBO

HIIT BIKE PRO

Bicycles

The HIIT BIKE PRO bike is specially designed for cardiovascular exercise. Its design allows for complete resistance training by pedalling and moving the arms at the same time. These movements do not hurt our joints, making the Air Bike ideal for cardiovascular workouts regardless of physical condition. Additionally, the machine does not run on electricity, reducing consumption and removing the need for cumbersome cables.

CONNECTIVITY

ROW PRO

HIIT ROW PRO

Rowing Machine

The HIIT ROW PRO rowing machine is designed to take up barely any space and has a practical dual function design: Remo and Sky. It features an innovative system that combines magnetic resistance technology with air technology, meaning users can enjoy 20 extra levels of graduated resistance. Its dual function allows for a full-body muscle workout, making it an ideal machine for users who want to increase strength and lose weight at the same time.

BLADE GO

HIIT BIKE GO

Bicycles

Our HIIT BIKE GO exercise bike was designed by our team of engineers based on constant feedback from fans, health clubs, trainers, physiotherapists and fitness professionals. It runs on air resistance, meaning the amount of resistance the machine gives us depends on the force used when pedalling. It adapts to the specific needs of each user thanks to its personalisable settings.

VENTILADOR
